Brand New Book ***** Print on Demand *****.Excerpt from The Small Mammals of Colorado This bulletin on the small mammals of Colorado omits all mention of the tree squirrels, ground squirrels, chipmunks, and gophers, which were excellently treated by Mr. Robert Rockwell in his bulletin on those animals. The present paper aims to give some mention of our smaller mammals, though it has been a little difficult at times to tell where to draw the line, and what to include and what to omit. Many of these animals are but little known to the casual observer, largely because of the nocturnal habits of the majority of the species, and the retiring habits of others. When one becomes acquainted with them and their ways he finds them very interesting, and their life histories well worth studying. In fact there is still much to be learned about many of them. Since the writers The Mammals of Colorado was published, some ten years ago, a number of the genera of North American mammals have been studied by specialists, with the result that some species and subspecies have been added to and others dropped from our local list, and some of the scientific names have been changed. While not making the latter especially prominent in the text, they have invariably been given, for they are a more positive identification of the species than any English or vernacular names. No detailed descriptions of any of the species are included, only a general idea of the color and size is given. The total length is from the end of the nose to the end of the tail, measured in a straight line when the animal is stretched out, and the...
