Createspace, United States, 2014. Paperback. Book Condition: New. 203 x 133 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Axon is little more than a brilliant idea and some rough demos bouncing around in Brian Vincit's brain, but as the pieces begin to fall into place, he and his partner realize that their neural operating system might just change the world. Before they can climb the ivory tower of Silicon Valley, they need to convince the judges at Technophile that they're the next big thing, while navigating the murky waters of investors and intellectual property poachers. The rules are simple - dream big, work fast, and keep your secrets safe. About The Operating System Series: The arms race of technological progress has been in full swing for the better part of two decades, and millions of people around the world continue to chase the next big thing. Brian Vincit is just another ambitious start-up coder with big dreams and a rapidly dwindling bank account. His new operating system can interact directly with your brain waves, allowing you to navigate the Internet without every touching a key or swiping a screen. On the verge of giving...
