

Engineering Psychology Human Performance: Instructor Review Copy (Hardback)

By Christopher D Wickens, Justin G Hollands, Professor of Psychology Raja Parasuraman

Taylor Francis Inc, United States, 2012. Hardback. Book Condition: New. 4th Revised edition. 234 x 190 mm. Language: English . Brand New Book. Forming connections between human performance and design Engineering Psychology and Human Performance, 4e examines human-machine interaction. The book is organized directly from the psychological perspective of human information processing. The chapters generally correspond to the flow of information as it is processed by a human being--from the senses, through the brain, to action--rather than from the perspective of system components or engineering design concepts. This book is ideal for a psychology student, engineering student, or actual practitioner in engineering psychology, human performance, and human factors Learning Goals Upon completing this book, readers should be able to: * Identify how human ability contributes to the design of technology. * Understand the connections within human information processing and human performance. * Challenge the way they think about technology's influence on human performance. * show how theoretical advances have been, or might be, applied to improving human-machine interaction.
