Two hundred years ago, this question could not have been answered; it could not even have been asked. Now it can be answered by the dwellers in every quarter of the globe. Then a few small settlements of earnest men, flying from the religious intolerance of the Old World, dotted a narrow strip of coast line on our New England border. Now a mighty nation, with a vast expanse of territory stretching from ocean to ocean, and from regions almost arctic on the north to regions equally torrid on the south, embracing more square leagues of habitable land than Rome ruled over in its palmyest days, here holds a position of independence and glory among the nations of the earth.
