Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from *On Force, Its Mental and Moral Correlates; And on That Which Is Supposed to Underlie All Phenomena: With Speculations on Spiritualism, and Other Abnormal Conditions of Mind* The doctrine of Philosophical Necessity, notwithstanding its supposed horrible tendency to sap the foundation of morals, has been elevated from the regions below, where, according to Milton, its discussion furnished fit occupation and amusement for devils only, - to form the base of Social Science. Philosophical Necessity is only another name for Law or a fixed order of Nature in the department of Mind, and there can be no Social Science without it. This I have endeavoured to make plain in my work on *The Philosophy of Necessity*, and it is my purpose now to show that the doctrine of the Correlation and Persistence of Forces, when thought out to its legitimate consequences, gives us a Science of Psychology based on Physiology, by which alone we can attain to the same command over mind, as we already have over physical force.
