Taylor Francis Ltd, United Kingdom, 2014. Hardback. Book Condition: New. 2nd Revised edition. 218 x 140 mm. Language: English . Brand New Book. Why do I need a teacher when I ve got Google? is just one of the challenging, controversial and thought-provoking questions Ian Gilbert poses in this urgent and invigorating book. Questioning the unquestionable, this fully updated new edition will make you re-consider everything you thought you knew about teaching and learning, such as: \* Are you simply preparing the next generation of unemployed accountants? \* What do you do for the sweetcorn kids who come out of the education system in pretty much the same state as when they went in? \* What s the real point of school? \* Exams - So whose bright idea was that? \* Why EQ is fast becoming the new IQ . \* What will your school policy be on brain-enhancing technologies? \* Which is the odd one out between a hamster and a caravan? With his customary combination of hard-hitting truths, practical classroom ideas and irreverent sense of humour, Ian Gilbert takes the reader on a breathless rollercoaster ride through burning issues of the twenty-first century, considering everything from the threats facing the world and the challenge of the BRIC economies to the link between eugenics and the 11+. As wide-ranging and exhaustively-researched as it is entertaining and accessible, this book is designed to challenge teachers and inform them - as well as encourage them - as they strive to design a twenty-first century learning experience that really does bring the best out of all young people. After all, the future of the world may just depend on it.
