It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book I have got read through during my individual life and might be the finest publication for ever.

One member of the family has been at Craig Colony for Epileptics, 10 have been in 11 reformatories, 5 have been in almshouses 5 have been in orphan asylums, 3 have been inmates of prisons, 2 in insane asylums and 1 committed suicide. The personal history of the patient as given shows no inciting causes of sufficient importance to account for the appearance of epilepsy. On the father's side there is undoubtedly a nervous taint but the cases of epilepsy are not closely enough related to the patient to consider the trait inheritable. The patient's mother, however, belongs to a feeble-minded and neurotic strain and the result is a double heredity of defect.
